

The French Network for Nutrition And Cancer Research

The French NACRe network serves research and knowledge dissemination in the nutrition and cancer field

Julie GINHAC, Juliette BIGEY, Paule LATINO-MARTEL
Coordination team, NACRe network, nacre@inra.fr - INRA - Jouy-en-Josas Research Center

OBJECTIVES

- **NACRe network animation**
- **To contribute**
  - to research development
  - to health professionals training
  - to general public and health professionals information

MEANS

- **Coordination team**
- **Public research teams**
- **Working groups and Committees**
- **Support of partners**

TOOLS

- **Web site : www.inra.fr/nacre**
  information packages, news, lights on…
- **NACRe team directory**
- **Documents validated by the network**
  for the general public and health professionals

NACRe NETWORK ACHIEVEMENTS AND PROJECTS

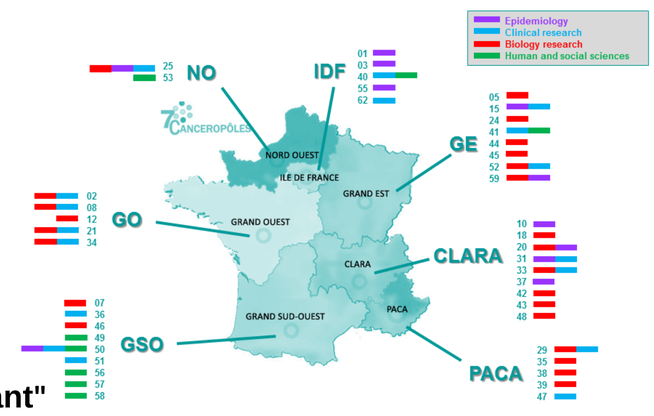

1 – To contribute to research development

- **Annual NACRe network meeting**
- **Nutrition and Cancer conferences in various scientific meetings**
- **"NACRe Label" for collaborative research projects**

Label NACRe Partenariat

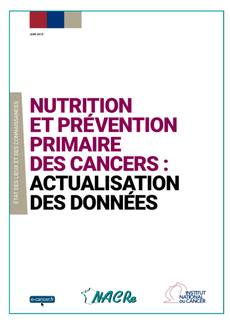

- **Creation of an "Exchange Grant" in partnership with the ARC Foundation**

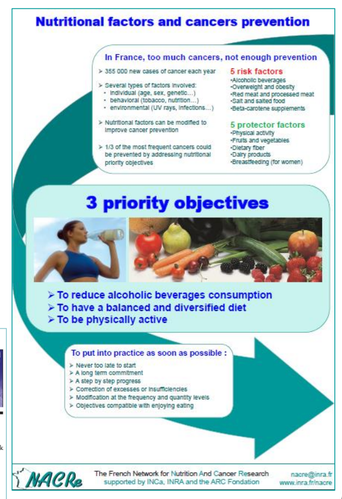

The 43 research teams of the NACRe network (March 2016)

2 – To be a principal contact for requests of relevant information

- **Systematic reviews and expertise**
  - ✓ 2015 INCa Report "Nutrition and primary cancer prevention: updating the evidence"
  - ✓ Critical reviews in Oncology/Hematology: Latino-Martel et al. 2016
- **Expert group on fasting and cancer** *(Report in october 2017)*
- **Response to interview requests from ministries, agencies, public and private partners**

3 – To spread information on validated scientific data

- **Production of various documents, published on the NACRe website**

- **NACRe Event on Nutrition and Cancer for the general public**
  - ✓ November 21, 2016 (Paris)

- **Website Certification "Health On the Net"**

4 – To contribute to health professionals training

- **NACRe trainings on nutrition and cancer in adults**
  - ✓ May 12, 2017 (Clermont-Ferrand)
  - ✓ July 05, 2017 (Paris)
- **Nutrition and Cancer conferences in health professionals trainings of partners**
- **Production of various documents**

5 – Next projects

- **To bring together public research teams in the nutrition and cancer field**
  - Elaboration of large multidisciplinary research projects on Nutrition and Cancer between NACRe teams
  - Inventory of experimental, epidemiological, clinical and SHS resources
- **To continue the dissemination of Nutrition and Cancer relevant information for general public and health professionals**
  - Publication the report of the expert group on "Fasting and Cancer" in october 2017
  - Scientific congress on Nutrition and Cancer, in partnership with the Fondation ARC, in Paris 30/11 and 01/12/2017

The network is supported by INRA, INCa and the ARC Foundation
